- HTML
- CSS
- JavaScript
- Python
- Django
- Git &Github

OBJECTIVES

To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately.

PROJECTS

Quiz Game console level application

Python programming

Developed a Python quiz game featuring multiple-choice questions. Utilized Python's data structures to manage quiz questions and answers. Designed interactive gameplay with scoring and feedback mechanism

ToDo List

HTML

Create a Python to-do list application with basic CRUD operations. Implement user authentication and authorization for secure access Design an intuitive user interface for easy task management.

Bus Timing Application

Django

Introducing my Bus Timing Project, a robust web application developed using Django. This platform provides real-time bus schedules, route information, and arrival predictions to enhance commuter convenience. With an intuitive user interface and efficient backend management, it ensures accurate and timely updates. Explore the application to experience seamless and reliable public transport information at your fingertips.

Portfolio

HTML,CSS

This website is a showcase of my skills, projects, and experiences, designed and developed by me using HTML and CSS. The clean and responsive layout ensures a seamless experience across all devices, highlighting my expertise in front-end development. Explore my work, learn about my journey, and get in touch for collaboration opportunities.
